Session 2.0

Collaboration using Git and Github

# Let's Recap

**Version Control  
Systems**

**git config and  
git init**

**git add and  
git commit**

**git status**

**git branch**

**git merge and  
conflicts**

But why  
Git?

# Problems that git solves

**1. Collaboration**

**2. Version Control**

**3. Synchronisation**

~\_(ツ)\_/~

# Normie Solutions

- Copying files over using pendrive
- Google Docs
- Dropbox / OneDrive

# Best Solution

# git

# But why Git?

**01**   **Easy Version  
Control**

**02**   **Synchronization of  
files**

**03**   **Seamless  
Collaboration**
